The GRAMMY Foundation was established in 1988 to cultivate the understanding, appreciation and advancement of the contribution of recorded music to American culture — from the artistic and technical legends of the past to the still unimagined musical breakthroughs of future generations of music professionals. The Foundation accomplishes this mission through programs and activities that engage the music industry and cultural community as well as the general public. The Foundation works in partnership year-round with The Recording Academy to bring national attention to important issues such as the value and impact of music and arts education and the urgency of preserving our rich cultural heritage. For more information, please visit www.grammyfoundation.org.
The Entertainment Law Initiative®, in concert with some of the nation’s most prominent entertainment attorneys, has established the Entertainment Law Initiative® (ELI) to promote discussion and debate about the most compelling legal issues facing the music industry today.

One of the premier educational initiatives is the national legal writing contest and scholarship program, which is co-sponsored by the American Bar Association. Law students from across the country have been invited to research, analyze and submit essays regarding important issues facing our industry. On February 12, 2016, the 18th annual ELI Luncheon will recognize the winning students and provide a forum for interaction with successful attorneys in the field.

Your participation in the Entertainment Law Initiative is vital to ensure that our educational goals are achieved and the project becomes an integral part of GRAMMY® Week festivities for many years to come. Please make your plans to attend.
